

# Announcement

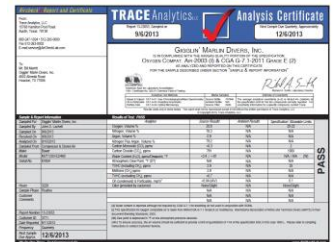

After many years of acquiring, building and fine tuning the very best in fill system designs, we are proud to officially announce that your Dive Center has finally completed the installation of what is the finest, most comprehensive high pressure pure breathing **Air, EANx & TRIMIX** fill system in our great state of Texas.

Bauer SecurisAir Clean Filtered Moisture reducing HP Compressor

5500 cubic feet of Hyper-clean modified grade E air storage.

Quarterly Air Quality reporting from 3<sup>rd</sup> party testing facility

36% & 32% NITROX Banks

8 tank whip fill panel with O2 clean mixing block & panel O2 regulator

TRIMIX Gas Analyzer

NITROX Gas Analyzers for blending and cylinder analyzing.

Oxygen & Helium Banks

Professional NITROX Blending Stick

O2 Clean Haskell with 6000psi high volume regulator

**Benefit to you:** Because we have designed such an efficient system our cost to produce any custom gas that you want is now reduced, so guess what that means..... wait for it ☺.....Platinum Club, Instructors, DiveMasters, & Staff will now be about 1/2 the cost of what it previously was. Yippee!!!
